

SHUTTLEWAGON TECHNOLOGY

DISCOVER SHUTTLEWAGON'S SYSTEM OF MOVING RAILCARS

Drive into Our Industry Standard
Locomotive Style AAR Coupler and
Connect the Air Hose – You are Done!

NON WEIGHT- TRANSFER COUPLER

Direct coupling like a locomotive

Takes the guess work out of lifting
the railcar too high

Consistent capacity, same whether coupled to loads
or empties

Simplified process – Easier on/off of the rail

Reduced maintenance costs

RIDE ON RUBBER TIRES

Full time pneumatic cushioning

Increased shock absorption resulting in smoother
ride for operator & drivetrain components

Reduced overall maintenance costs

Significantly increased traction/braking
as compared to steel wheel
