**UP TO 60 LOADED RAILCARS**

The NVX9060 Navigator Series Shuttlewagon stands alone as the highest capacity mobile railcar mover in the world. Powerful, versatile and dependable. It incorporates the most advanced technologies available to ensure safety and reliability are never compromised.

Industry leading 2 year/4,000 hour warranty

Patented rail guidance system, two independent drive wheel trucks supported on rotating bearings with eight 1/6 AAR profile guide wheels. ABS and traction assist provide more control while reducing maintenance costs.

360° Camera view available with technology package.

Standard feature air knife restores up to 50% of lost traction brought on by contamination or weather conditions.

Wide range AAR siding couplers are air released and hydraulically positioned to improve pulling performance on curves and grades.
